• INVESTMENT INVOLVES RISKS. The value of the Fund can be volatile and investors may not get back the amount originally invested. Past performance is not indicative of future results.

- Investors will be exposed to debt securities (including risks of Government securities, rated and unrated securities), interest rate, credit, liquidity, currency, concentration, custody and settlement, and US markets risks.
- The Fund may invest in mortgage-backed securities and asset-backed securities, which may give rise to higher liquidity, credit, counterparty and interest rate risks.
- The Fund may use certain types of financial derivative instruments ("FDIs") extensively for investment and other non-hedging purposes, which may involve a higher degree of risk such as counterparty, volatility, liquidity, leverage and valuation risks. The Fund may suffer a total or significant loss arising from the extensive use of FDIs.
- The Fund may invest in inflation protected securities, whose value generally fluctuates in response to changes to interest rates.
- The directors of Legg Mason Global Funds Plc may at their discretion pay dividends out of capital of a Distributing Plus Share Class. The payment of dividends out of capital effectively amounts to a return or withdrawal of an investor's original capital investment or of capital gains attributable to that original investment. Such distribution will result in a corresponding immediate decrease in the Net Asset Value per share of these Share Classes.
- Investors should not invest based on this marketing material alone. Offering documents should be read for further details, including the risk factors.

Performance is net of fees and is calculated on a NAV to NAV basis (USD).

Performance for periods greater than one year is cumulative.

Performance is based on reinvestment of any income and capital gains distribution derived from securities held in the Fund.

Acc. = Accumulating share class. Net investment income accumulated daily into NAV.

Performance includes periods prior to the Fund's launch date (20 April 2007), reflecting performance of the predecessor fund (which has a substantially similar investment objective and policy and managed by the same portfolio management team), whose assets were transferred into this Fund on 20 April 2007.

On 30 November 2017, the investment objective, policy and/or restrictions were changed.

⁴ Current Yield (gross of expenses), is not representative for an individual share class as the yield does not deduct the Total Expense Ratio or any applicable taxes and other locally applied costs that an investor may be subject to.

⁵ Weighted Average.

⁶ Credit Quality: Nationally Recognised Statistical Rating Organisation's (NRSRO's) assess the likelihood of bond issuers defaulting on a bond's coupon and principal payments. The credit quality allocation by Western Asset Management assigns each security the higher rating from three NRSRO's (Standard & Poor's, Moody's Investor Services and Fitch Ratings, Ltd.). If only one NRSRO assigns a rating, that rating will be used. Securities that are not rated by all three NRSRO's are reflected as such. The lower the overall credit rating, the riskier the portfolio. The credit rating is expressed as a regular letter rating (from high to low quality): AAA, AA, A, BBB, BB, ...D.
