About The Fund

The Fund is a sub-fund of Legg Mason Global Funds plc, an open-ended umbrella investment company constituted in Ireland. The Fund seeks to maximise total return through income and capital appreciation by investing at least 70% of its Net Asset Value in emerging market corporate bonds. The Fund invests in emerging market corporate debt securities, rated at the time of purchase at least B-, or its equivalent, across the major fixed-income sectors where the Sub-Investment Manager believes that the yield and potential for capital appreciation are sufficiently attractive in light of the risks of ownership of the obligation.

⁴ Credit Quality: Nationally Recognised Statistical Rating Organisation's (NRSRO's) assess the likelihood of bond issuers defaulting on a bond's coupon and principal payments. The credit quality allocation by Western Asset Management assigns each security the higher rating from three NRSRO's (Standard & Poor's, Moody's Investor Services and Fitch Ratings, Ltd.). If only one NRSRO assigns a rating, that rating will be used. Securities that are not rated by all three NRSRO's are reflected as such. The lower the overall credit rating, the riskier the portfolio. The credit rating is expressed as a regular letter rating (from high to low quality): AAA, AA, A, BBB, BB, ...D.

A temporary negative position may be due to unsettled trade activity and/or the use of particular investment policies as allowed by the prospectus.
