- INVESTMENT INVOLVES RISKS. Past performance is not indicative of future results.
- The Fund may invest up to 100% of its NAV in mortgage related securities, including mortgage-backed securities (MBS), stripped securities and asset-backed securities (ABS), which can involve material additional risks, e.g. counterparty default risk, and may expose the Fund to significant losses.
- The Fund may invest in a single country which may give rise to increased risk over more diversified funds.
- Investors should read and understand the Fund's most current offering document, including details of risk factors relevant to the Fund and, in particular, the risk of investments in the securities of emerging markets issuers, MBS, stripped securities, ABS and derivatives, before making an investment in the Fund.
- An investment in the Fund may not be suitable for all investors. The investment decision is yours but you should not invest in the Fund unless the intermediary who sells it to you has advised you that it is suitable for you and has explained why, including how buying it would be consistent with your investment objectives.

- Performance is net of fees and is calculated on a NAV to NAV basis (USD).
- Performance for periods greater than one year is cumulative. Performance is based on reinvestment of any income and capital gains distribution derived from securities held in the Fund.
- Acc = Accumulating share class. Net investment income accumulated daily into NAV.
- Dis (D) = Distributing share class. Dividend declared daily and paid out monthly.
- Performance includes periods prior to the Fund's launch date, reflecting performance of the predecessor fund (which has a substantially similar investment objective and policy and managed by the same portfolio management team), whose assets were transferred into this Fund on 20 April 2007.
- Benchmark : Barclays Capital 1-3 Year U.S. Government Bond Index. "Since inception" benchmark performance is calculated from the performance inception of Class A Dis (D) share.
